Product Details

Experience full 4K resolution and an ultra-wide angle field-of-view for professional quality visual collaboration in huddle spaces at an affordable price. Combine with your own choice of mic and speaker for an exceptional collaboration experience.

- 4K video, auto-focus, auto framing, and 3x digital zoom

Note: Auto framing is not available in 4K mode.

- 110° Field of View
- Wide dynamic range support for optimal image capture
- Super-high SNR with advanced 2D and 3D noise reduction
- Full-function USB 3.0 interface for video and power
- Control the camera's functions via IR remote or UVC protocol
- Easily mounted on monitors using standard damping rotary-shaft support
- Perfect for popular cloud-based applications such as ClearOne's COLLABORATE® Space, Microsoft Teams and Skype for Business, Zoom, WebEx, GoToMeeting, and others

System Requirements

Windows 7, 8, 8.1, 10, MacOS, Linux

Main Parts of Camera

Care and Maintenance

1. Never aim the lens of the camera at extremely bright objects.
2. Use a soft cloth to clean the camera. If needed, moisten the cloth with a weak solution of water and a neutral kitchen detergent.
3. When you carry the camera, do not hold the camera head.
4. Make sure the camera is far away from any area where radiation, X-rays, strong electric waves, or magnetism exist.
5. Do not use the camera outdoors.
6. Do not operate the camera outside of 32 °F (0 °C) - 104 °F (40 °C).

Packing List

Camera

Remote Control

USB cable 6 ft. (1.8 m)

Carefully inspect the shipment. If the shipment shows obvious signs of damage, retain the box and packing material for inspection by the carrier. Contact the carrier immediately.

ClearOne is not responsible for product damage incurred during shipment.

Setup

1. Place the camera and bracket on the monitor and adjust the bracket hinge to accommodate your preference for the angle of the camera.

2. Connect the USB cable to the USB 3.0 Type C connector on the camera and the other end to a USB 3.0 port on your computer.

3. Launch your preferred video collaboration application.

The application activates the camera.

Troubleshooting

Problem	Resolution
Image is jittery when the camera lens is at max zoom	<p>Ensure that the camera is installed in a stable position.</p> <p>Remove vibrating objects/machinery from the proximity of the camera.</p>
